

TAREA 7.2**Activity 2**

WRITE 90-100 WORDS EXPLAINING HOW COMPUTER NETWORK HELP US IN OUR EVERYDAY LIFE.

Computer networks are an essential part of our everyday lives, enabling us to communicate, access information, and perform tasks quickly and efficiently. With the widespread use of the internet, computer networks allow us to connect with people from all over the world, from sending emails to making video calls. In addition, computer networks provide us with access to a vast amount of information, including news, research, and entertainment. They also enable us to perform tasks such as online shopping, banking, and booking travel. As we become more reliant on technology, computer networks have become an indispensable tool for staying connected and making our lives easier and more convenient.
