

TAREA 6.2**Activity 2****WHAT DO YOU NEED TO MAKE A PODCAST?**

To make a podcast, you need a microphone, a computer with an audio card and drivers, and recording software. You may also use external microphones, which have to be plugged into the computer.

WHERE CAN YOU DOWNLOAD A SOUND RECORDING SOFTWARE?

You can download sound recording software from sites like audacity.sourceforge.net.

DESCRIBE HOW TO RECORD A SOUND.

To record a sound, you need to connect your microphone to your computer, open your recording software, press the record button, and start talking. Once you're done, click the stop button, and save your file.

WHAT IS A PODCAST?

A podcast is an audio file that is broadcast on the internet, usually in a series, and can be listened to by anyone who has access to it.

FOLLOW THE INSTRUCTIONS ABOVE AND MAKE A PODCAST

I'm not sure about this point, do I have make a podcast and share it including a link to youtube or something like that? The Instructions for making a podcast are provided in the granted video, including selecting a topic, preparing bullet points or a script, recording the podcast, and uploading it to a website or blog. Make me know if made a podcast its needed to pass this task. Personally, one of my favourite podcasts in Spanish it's the Wild Project, I definitely recommend that one.
